ABDUR REHMAN

Aspiring Full-Stack Developer | Front-End Specialist

+92 321 5187903 | abdurrehmansaifi784@gmail.com | Islamabad, Pakistan | linkedin.com/in/abdurrehman1312 | github.com/AbdurRehman1312

PROFESSIONAL SUMMARY

Front-End Developer with 3+ years of professional experience building scalable, high-performance web applications using React.js, Next.js, and Tailwind CSS. Currently expanding into full-stack development with backend technologies. Experienced in the full software development lifecycle — from requirements gathering and UI design through API integration, testing, and deployment. Has delivered production-ready projects across blockchain (NFT platforms, DeFi UIs, smart contract integrations on Binance Smart Chain) and AI/LLM-powered applications, translating complex decentralised and intelligent systems into clean, intuitive user interfaces. Passionate about clean code, seamless user experiences, and building at the intersection of modern web, blockchain, and AI technologies.

TECHNICAL SKILLS

Frontend	React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, GSAP
UI / Styling	Tailwind CSS, ShadCN UI, Bootstrap, Ant Design, Responsive Design
Backend	Node.js, Supabase (collaborated), PostgreSQL, REST API integration
Tooling	Git, GitHub, Vercel, Netlify, Render, VS Code

WORK EXPERIENCE

Front-End Developer

February 2024 – Present

Mkaits Technologies — Islamabad

- Sole front-end developer on the team — owned the entire UI/UX delivery pipeline from wireframe review to production deployment, gaining hands-on exposure to all stages of the SDLC.
- Built and maintained multiple live client projects using React.js and Next.js, integrating third-party and internal REST APIs with a focus on performance and responsiveness.
- Implemented complex animations and interactive UI components using GSAP and Tailwind CSS, improving engagement metrics across blockchain and SaaS products.
- Collaborated directly with clients to gather requirements, iterate on designs, and deliver features on schedule — acting as both developer and front-end point of contact.
- Proactively taking on Node.js tasks to broaden into full-stack development and contribute beyond the front-end layer.

Junior Front-End Developer

July 2023 – February 2024

Repla Technologies — Islamabad

- Completed a frontend internship and quickly transitioned to a full junior developer role contributing to live production projects.

- Delivered UI components using HTML, CSS, JavaScript, Bootstrap, and React.js, improving code quality under senior developer mentorship.
- Participated in sprint planning, code reviews, and demos — building familiarity with agile development workflows.

KEY PROJECTS

NFSOUNDS — Blockchain Music NFT Platform *(Final Year Project — BU EXPO 2nd Place)*

- Designed and built a full-stack platform (React + Laravel + MySQL) where artists mint and sell music as NFTs on Binance Smart Chain.
- Implemented personalised collections, artist subscriptions, and secure NFT purchase flows — awarded 2nd place at BU EXPO 2024.

Reshopi Marketplace
Next.js · Tailwind CSS — reshopi.cl

Holotheia AI
Next.js · ShadCN — holotheia.ai

Veratis Global
React.js · Tailwind · ShadCN — veratisglobal.com

Laika Market (Blockchain)
React.js · Tailwind · ShadCN — laika.market

NFT Gaming Stars
React.js · CMC API — nftgamingtest.netlify.app

Black Bird Limo
Next.js · Tailwind · ShadCN — bbirdlimo.com

CERTIFICATIONS

Blockchain Specialization — *June 2025*
University at Buffalo (Coursera) *ID: KR8JDLAEOGGU*

Smart Contracts — *March 2025*
University at Buffalo (Coursera) *ID: 8A9D7AIHR5HY*

Meta Front-End Developer Specialization — *July 2023*
Meta (Coursera) *ID: NU5X3XDG9X6L*

Advanced React — *July 2023*
Meta (Coursera) *ID: GF43S7MA2W44*

EDUCATION

Bachelor of Science in Information Technology (BSIT) — *2020 – 2024*
Bahria University, Islamabad
Major subjects: Computer Programming, OOP, Data Structures & Algorithms, DBMS, Web & System Technologies

ACHIEVEMENT

BU EXPO 2024 — 2nd Place Winner · *May 2024*
Awarded 2nd place at Bahria University's annual project expo for NFSOUNDS, recognised for innovative integration of blockchain (Binance Smart Chain), React front-end, and Laravel back-end into a live NFT marketplace.
